No audio result.The present invention relates to a method for fabricating a semiconductor device and more particularly to a method for fabricating a MOS type field effect transistor. In the prior art method for fabricating a semiconductor device, a field oxide film 12 is formed in the surface of a silicon substrate 10 as shown in FIG. 1. Then a gate electrode 14 is formed in contact with the field oxide film 12. Thereafter, the silicon substrate 10 on which the gate electrode 14 is formed is subjected to oxidation processing so as to form a gate oxide film 16 on the upper surface of the silicon substrate 10. Further, the silicon substrate 10 on which the gate oxide film 16 is formed is subjected to ion implantation of impurity ions so as to form a source region and a drain region, which are spaced from each other. In the above described prior art method, for example, in a MOS type field effect transistor of an LDD structure which has a gate oxide film of a thin thickness on a side wall of the gate electrode, the source region and the drain region are formed in contact with the field oxide film 12. Therefore, when the gate oxide film 16 is formed to the thickness of 1,000.ANG. for example, the gate electrode 14 is floating. For this reason, when a channel forming region is formed, the potential of the channel forming region varies from the drain region to the source region. It is accordingly impossible to improve the degree of integration of the device. In the above described prior art

determine whether a blog is advertorial or
not, it can be impossible to accurately
measure the true effectiveness of their
media buys. It’s like the title says, I’m an
information and privacy advocate (more
here) and am passionate about ensuring
that information about me and others is
kept private. You may have seen it in the
news recently, and maybe even thought
about posting something about it in your
blog. The Olympics is a huge event in the
mainstream and an opportunity for your

brand. Some people, however, think that it's not entirely the right venue for their brand. To that end, here's the first post I'm writing for Lings Public Relations about brand-themed Olympics coverage. Read it now before the games begin: The Olympics are an impressive, historical event with incredible scale, international recognition and profound meaning. But, the biggest issue with the games is that many consider them a partisan venue for political expression. Blogs, particularly this one, have been going on about how poorly the media coverage of the Olympics is done. 3da54e8ca3
