Additionally, FIFA 20 also introduced "Healing Touch," a feature that recognizes when a player has been impacted by the ball and can trigger an ultra-careful approach to the situation. The intention with "Healing Touch" is that players won't get hurt by the ball accidentally, but will get more control over their body positioning and can allow for more creative play and enhance creativity. From a visual standpoint, the team-reused engine features "premium cloth" and "premium grass" that emit the most realistic looking reflections in the stadium. Users can again choose either a left- or right-handed gameplay experience that will be available on all of the platforms. Additionally, this year's FIFA is also available on Xbox One, PlayStation 4, and PC. The full list of new features follows below. New Team Play Modes "Be A Pro" - Team up with your friends to play head-to-head as one of the best 11 FIFA players in the world. Dominate the competition by showcasing footballing traits like "verticality" and "pace", as you improve to earn your spot on the Master League. "The Fastest Tournament on Earth" - Challenge your friends to a fast-paced, cheeky tournament of sorts, where your goal is to determine who can quickly unlock the most titles by the end of the five minute matches. "The Champions League" - Once a year, the best football players in the world congregate at the FIFA 20 World Cup. Play as any of the invited nations and use the "Control Your Destiny" gameplay engine to determine which team will go home with the cup. New Players Stephan El Shaarawy - Serie A, Italy William Carvalho - Premier League, Portugal Tayfa - "Europe's Next Top Star" - UEFA Champions League, Sweden Aboubakar Keita - Serie A, Cameroon Konstantin Zyryanov - Russian Premier League, Russia Peter Lovenkrands - German Bundesliga, Denmark Francesco Lodi - Serie A, Italy Sofiane Boufal - Ligue 1, France Aleksandar Mitrovic - Premier League
