This requires a valid Microsoft Internet Security code. Windows XP: Autoscene version 1.3.1 for Microsoft Windows.. Download The 1.3.1 Release Date: February 10, 2005. Remaps files with an automatic re-scaling algorithm. Notes: 1.1.1.2. The ISO must be a valid image. Playable DVD (DVD-Video).Q: In what order should I alphabetically show items in a list? I currently have a ListView in my application that displays items alphabetically. However, I'd like to provide the user with some sort of indicator that would guide the user to the first item of the alphabet (A-Z). So, for example, the list would be ordered alphabetically, but with the letters A-Z bolded in front of the items. I've read about the ListView's sort method, but I'm not sure how to implement it to accomplish my goal. Does anyone have any suggestions as to how I should accomplish this? A: You'll have to write your own Adapter to sort the listview contents. You can use the built-in sort order you've mentioned in the code. Following code will get you started. Using the code below I can get an alphabetical list of locations in my city. I just modified the section of code that determines the location at a given alphabet position. The bold letters at the top of the list may be turned off by you, and you can add the numbers, or some other indicium to denote the alphabetical position.
